

Spring forward into savings!

*Call us today for an Air
Conditioning Tune-up.*

Services include:

- ✓ **Calibrate Thermostat** for accurate control and to prevent system from running longer than necessary, increasing utility usage.
- ✓ **Test Refrigerant Charge** to ensure optimum levels leading to lower utility usage and extend compressor life.
- ✓ **Test Capacitors** to ensure reliable operation and continued compressor and motor protection.
- ✓ **Test Crankcase Heaters** to ensure proper compressor protection.
- ✓ **Inspect & Test Controls & Safeties** to keep operating costs low and prevent failures.
- ✓ **Clean or Replace Filters** to reduce energy use, reduce compressor strain, improve indoor air quality, and improve comfort
- ✓ **Clean & Adjust Blower Assembly** to extend motor life, improve air quality, and reduce sound
- ✓ **Check Air Flow** to ensure proper air flow across the coil for proper humidity removal and reliable operation
- ✓ **Visually Inspect Ductwork** to identify obvious leaks, which reduce system efficiency and increase utility expense
- ✓ **Tighten Electrical Connections** to ensure uninterrupted system operation
- ✓ **Measure & Record Voltage & Amperage** to identify baseline operating conditions

And Much More!

Call us today for a Tune-up.

A Spring tune-up of
your cooling system
will improve your
comfort and
your system's
efficiency.
